

# New

## AnoFrame MultiSystem™

If you can imagine it, you can display it.

With our new AnoFrame MultiSystem, your panel display options are limitless. You have complete freedom to choose the exact look you want. You choose the number of panels you need and their dimensions. We make it happen. With our new AnoFrame MultiSystem, your choices are infinite.

► **Always cut to your exact specifications.**

### 14AM200

black anodized aluminum round profile with non-mitered corners for 3/16" substrates

### 14AM200

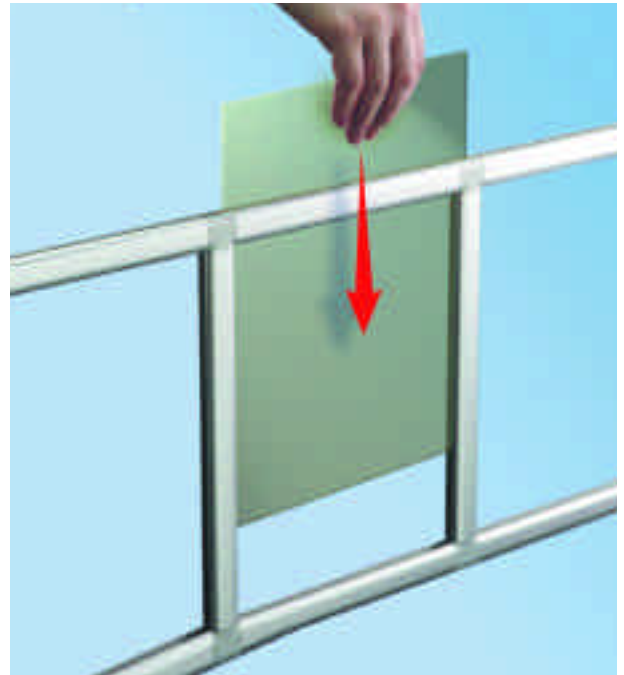

clear anodized aluminum round profile with non-mitered corners for 3/16" substrates

### Graphics change in seconds with our top and side loading AnoFrames.

- AnoFrames are top and side loading so graphics change without disassembly
- Can be ordered as a single frame with non-mitered corners
- Panels are always cut to your exact specifications
- Add as many panels in any configuration you want

**Our innovative design makes changing graphics easy, regardless of your panels' location.**

### AnoFrame MultiSystem 14AM20

Substrate Possibilities	inches	millimeters	points
	<b>minimum thickness</b> equivalent to: 2 business cards	1/50"	1/2 mm.
<b>maximum thickness</b> equivalent to: phone cord	3/16"	5 mm.	187 pt.

Sizes reflect combined laminate and substrate thickness.

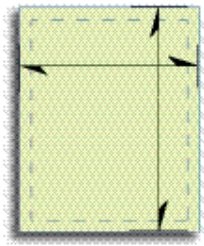

### Technical Information

Substrates should be rigid or semi-rigid.

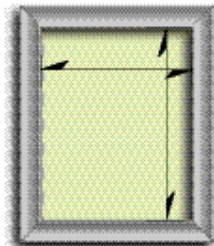

Stock finishes are black anodized or clear anodized aluminum. Custom colors also available; 10,000 ft. minimum and an up charge may apply. Wood finishes are available and we can match most colors. Minimum quantities apply.

Connectors are available in black or silver.

### Live Area Calculator

**Graphic**  
8.5" x 11"

**Live Area**  
7.75" x 10.25"

"Live area" is the amount of graphic actually shown when placed in a frame. When you put a graphic into a 3/16" AnoFrame MultiSystem, a 3/4" margin is covered by the frame.

### AnoFrame MultiSystem Example Pricing

Example Graphic Size	Price
